Why an OpusWorks MBB?

The OpusWorks Institute – an unparalleled team of seasoned MBBs from every industry as content developers, instructors, and mentors

30 years of success training and developing CPI practitioners, including Green Belts and Black Belts

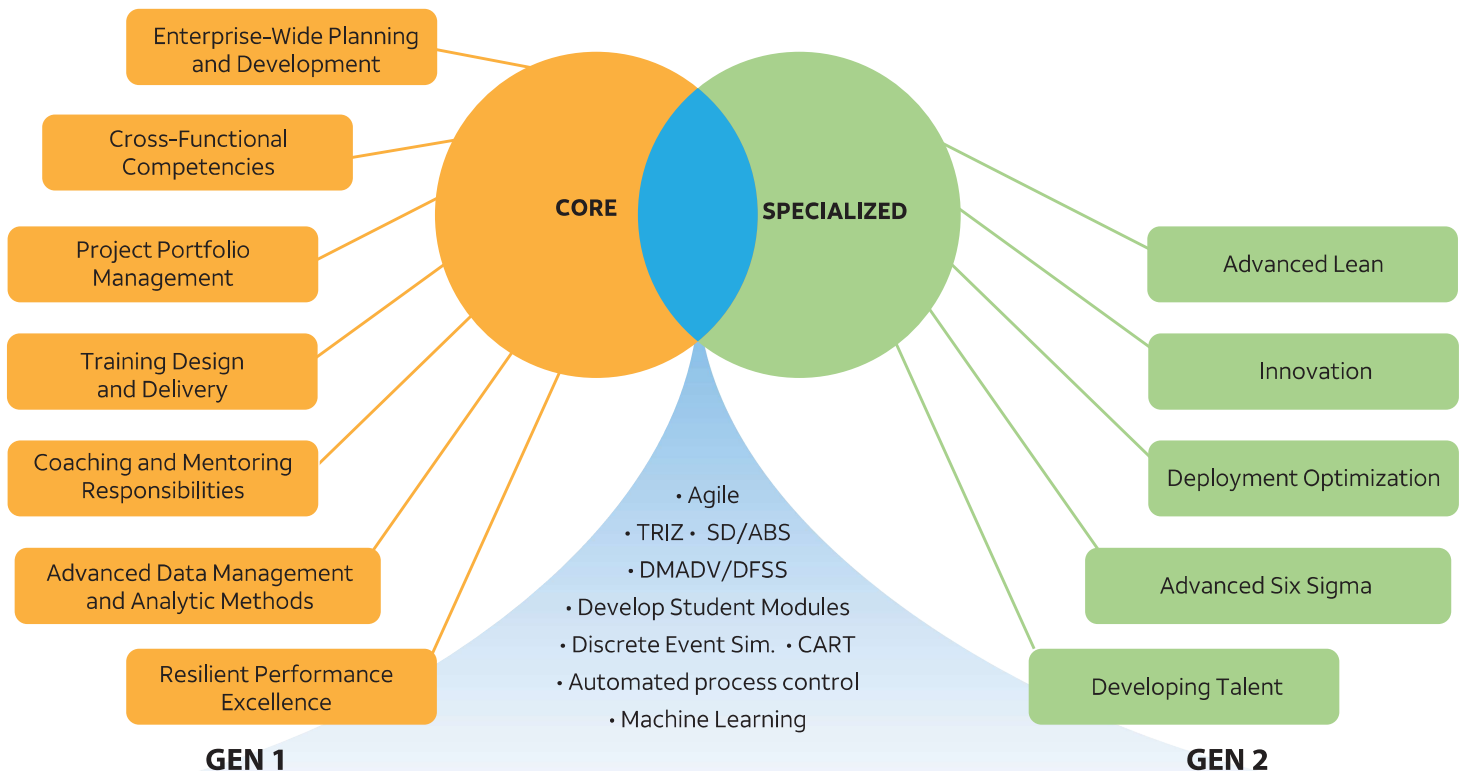

A curriculum created utilizing Six Sigma DFSS

A model that is:

- Aimed at developing resilient MBBs, prepared to thrive in an ever-changing world
- Not one-size-fits-all but modular, including opportunities for specialization based on the individual's their organization's interests and needs

Content that is:

- More practical than theoretical with Learning Objectives linked to demonstrable, measurable capabilities
- Less focused on advanced statistics and more on soft skills such as leadership and innovation
- Based on an understanding of CPI leadership that transcends project and deployment leadership to include change and thought leadership
- Inclusive of advanced Lean Six Sigma but also many other established and emerging tools and methods such as Design and Systems Thinking, TRIZ, and HRO
- IACET accredited. CEUs will be awarded for the course.

Who Should Apply?

The course is designed with an innovative perspective, with practical scenarios of great added value for tenured Lean Six Sigma Black Belts. The course also has rigorous academic requirements, so it is necessary that students meet the following criteria before enrolling:

- **Certified Black Belt from OpusWorks Institute or similar institution with alignment to ASQ's BOK**
- **Project portfolio: At least 5 projects in portfolio including corresponding affidavits.**
 - 2 of these projects will be selected for review and the students will need to prepare for a Q&A session with our review board about the two projects selected.
- **At least 4 years of demonstrable experience as certified Black Belt in the following criteria:**
 - Teaching, coaching and mentoring projects.
 - Technical experience in the use of LSS BB BOK.
 - Leading Lean Six Sigma at mid or senior level.
 - Score at least 80% in the OpusWorks Master Black Belt pre-enrollment exam.
